

# Environmental Sustainability Policy

## Our Approach

Comfy Quilts Ltd recognises the real and potential impact that its activities have on the environment at a local and national level.

The company believes that environmental protection, pollution, prevention and effective management of environmental risk, ranks equally with all other businesses considerations and actively contributes to our success. Comfy Quilts recognises that the effective implementation of this policy represents an opportunity to improve the performance of the group by reducing our environmental impact and increasing the efficiency of our operations . In order to demonstrate our commitment to continuous improvement and prevention of pollution, we have set Objectives and Targets and routinely monitor and report on our key performance indicators.

Comfy Quilts is opposed to all illegal management of waste including but not limited to fly-tipping, illegal dumping, unauthorised burning and incineration of waste.

Comfy Quilts will not work with Suppliers and Service Providers identified to be in breach of waste management regulations.

## Objectives

- Continued measurement and monitoring and segregation of our waste streams
- Implement energy and water reduction programmes
- Implement training programmes for our employees, to raise awareness of environmental issues and enlist support in improving the company's environmental performance.

## Scope

Comfy Quilts is committed to complying with its obligations under the applicable environmental legislation and other requirements that the company may subscribe to.

Our environmental policy sets the framework by which we minimise the potential impact that our activities have on the environment, and we are committed to continually improve these activities.

Comfy will promote a positive environmental culture by adopting best practice to include consultation and joint involvement of management and employees on all matters affecting our environment.

## Responsibilities

Ownership and responsibility for the environmental policy with the CEO . The Managing Director has the functional responsibility for ensuring that the company complies with the requirements of this Policy and for ensuring that adequate and appropriate resources are made available to implement this policy.

It is the duty of all managers and team leaders to establish and maintain a sustainable working environment by ensuring that all employees receive adequate Information Instruction, Training and supervision in order to minimise the business environmental impact.

All employees are required to fully co-operate in the implementation of this policy and its associated rule and procedures . We ask for each individual to be aware of how their actions may impact on the environment and to act responsibly by considering waste and energy minimisation

Customers, contractors and suppliers will also be required to co-operate with the company in ensuring that the policy commitments are met. This statement will be reviewed and revised when appropriate to take into account any change in circumstance or legal requirements
